2. Proposed Scheme of Arrangement

- 2.1. The Committee of Independent Directors of the Company noted the rationale and the benefits of the Scheme which, *inter-alia*, are as follows:

A. BACKGROUND

The background and information of the Company, the Transferor Company and Resulting Company is, *inter-alia*, as under:

- National Peroxide Limited, the "Demerged Company" or "Transferee Company" or "Company" or "NPL", is a public company incorporated under the provisions of the Companies Act, 1913. The Company is engaged in manufacturing, distribution and dealing of peroxygen chemicals and is also engaged in the business of making long term investments and corporate lending through its wholly owned subsidiary viz., the Transferor Company. The equity shares of the Transferee/ Demerged Company are listed on BSE Limited.

National Peroxide Limited

- Naperol Investments Limited, the “Transferor Company” or “NIL”, is a public company incorporated under the provisions of the Companies Act, 1956. The Transferor Company is registered with the Reserve Bank of India as a Non-Banking Financial Company as provided under section 45 – IA of the Reserve Bank of India Act, 1934. The Transferor Company is engaged in the business of long term investment and corporate lending. The Transferor Company is a wholly owned subsidiary of the Transferee Company.
- NPL Chemicals limited, i.e. “Resulting Company” or “NCL”, is a public company under the provisions of the Companies Act, 2013. The Resulting Company shall carry on the business of manufacturing, distributing and selling of peroxygen chemicals. The Resulting Company is a wholly owned subsidiary of the Demerged Company.

B. RATIONALE OF THE SCHEME

- The Transferee / Demerged Company is engaged in business of manufacturing of and dealing in peroxygen chemicals and is one of the largest manufacturer of hydrogen peroxide in India, with an installed capacity of 150 KTPA on 50% w/w basis. The Transferee / Demerged Company also owns certain strategic investments and is also engaged in the business of making long term investments and corporate lending directly and also through its wholly owned subsidiary viz., the Transferor Company (Naperol).
- The nature and competition involved in each of the aforementioned businesses is distinct and it is capable of attracting a different set of investors, strategic partners, lenders and other stakeholders.
- Further for growth and expansion of the said chemical business and the investment and corporate lending business, differentiated strategy is required to be aligned to the industry specific risks, market dynamics and growth trajectory.
- With a view to reorganise the businesses of the Demerged Company / Transferee Company, it is proposed to bring the said chemical business of the Demerged Company / Transferee Company under the aegis of the Resulting Company (NCL) and amalgamate the Transferor Company (Naperol), engaged in the business of long term investment and corporate lending, with the Transferee Company (NPL). This, inter alia, result in the following benefits:
 - unlocking the value of each of the businesses for the shareholders of the Transferee/ Demerged Company, attracting investors and providing better flexibility in accessing capital;

- segregating different businesses having different risk and return profiles, and providing investors with better flexibility to select investments which best suit their investment strategies and risk profile; and
- enabling focused growth strategy for each of the businesses for exploiting opportunities specific to each business.

C. IMPACT OF THE SCHEME ON THE SHAREHOLDERS OF THE COMPANY

- The Demerged Company / Transferee Company has issued only one class of shares, i.e. equity shares. Both the Promoter and Non-Promoter shareholders of the Demerged Company / Transferee Company holding such equity shares will be entitled to the allotment of fully paid listed equity shares in the Resulting Company. Thus, the extent of interest of each shareholder of the Demerged Company / Transferee Company, whether in the Promoter or Non-Promoter category, in the Demerged Company / Transferee Company and in the Resulting Company would virtually be the same as before and the Promoter and Non-Promoter shareholders of the Demerged Company / Transferee Company shall hold listed equity shares of the Resulting Company in view of the demerger of the Demerged Undertaking into the Resulting Company.
- The Transferor Company is a wholly owned subsidiary of the Transferee Company and therefore there shall be no issue of shares by the Transferor Company as consideration for the amalgamation of the Transferor Company with the Transferee Company. Accordingly, all shares in the Transferor Company held by their shareholders shall stand cancelled without further act or deed on the amalgamation coming into effect and in lieu of such shares of the Transferor Company no new shares shall be allotted or payment in cash made whatsoever by the Transferee Company to the shareholders of the Transferor Company.

The proposed Scheme is expected to be beneficial to NPL, NIL and the Resulting Company and their respective shareholders, creditors and all other stakeholders and will enable NPL and NIL to achieve and fulfil their objectives more efficiently and economically.
