FABRICATION PLANT TO COME UP IN MYSURU

# ISMC to Invest \$3 billion in Chip-making Plant in K'taka

This gives state lead in cornering investments under govt's \$10-b incentive scheme for semiconductors

Our Bureau

**Bengaluru:** International semiconductor consortium ISMC said on Sunday that it would invest \$3 billion in a semiconductor chip-making plant in Karnataka. This has given the southern state the lead in cornering investments under the Union government's \$10-billion incentive scheme for semiconductors. ISMC is a joint venture between Abu Dhabi-based Next Orbit Ventures and Israel's Tower Semiconductor.

The government said it would also create about 10,000 indirect job opportunities and kick off an ancillary semiconductor ecosystem. ET was the first to report on April 25 that Karnataka was close to pipping Gujarat in inking a deal with the consortium for a semiconductor plant. Chief minister Basavaraj Bommai, who said last month that Karnataka would get a semiconductor plant soon, was present as ISMC director Ajay Jalan signed the memorandum of understanding with EV Ramana Reddy, the additional chief secretary, industries and IT/BT departments, in Bengaluru on Sunday. The unit will be one of the first and largest semiconductor fabrication units in the country under the Indian Semiconductor Mission project. The chip consortium will set up the Mysuru plant over the next seven years.

Bommai told ET that Karnataka was leading the march in the semiconductor mission that Prime Minister Narendra Modi had launched. The partnership with ISMC, he said, will make Karnataka the frontrunner in semiconductor manufacturing. His state, the chief minister said, has clinched the deal while many others are competing for investments in the semiconductor fab sector.

ET was the first to report on April 25 that Karnataka was close to inking a deal with ISMC for a semiconductor plant

Karnataka understands that it is not only incentives or concessions, but also a conducive ecosystem that will attract investors, he added. The project would mark Karnataka's grand entry on to the world's semiconductor map, CN Ashwath Narayan, deputy chief minister and minister of IT/BT, said. Two other players — the Vedanta-Foxconn joint venture and the Singapore-based IGSS — have also bid for incentives to set up semiconductor and display units in India.

For a significant time, the company was struggling to even secure working capital to make trucks. Bhuwalka also reached out to multiple global truck makers like Kamaz and Paccar to bail him out of the tough situation, but nothing fructified. In its last year of operation, AMW incurred a loss of ₹1,268 crore in FY19 at a revenue of ₹44 crore. It had accumulated losses of ₹14,292 crore on its books, according to information on the corporate affairs ministry website accessed through business information platform ToIer.

## AMW Motors' Lenders Approve Resolution Plan by US' Triton EV

Joel Rebello & Ketan Thakkar

**Mumbai:** Lenders to Mumbai-based bankrupt truck-maker AMW Motors have approved a resolution plan by US electric vehicle manufacturer Triton EV in a vote completed over the weekend, four persons aware of the details said.

Lenders led by IDBI Bank and Indian Overseas Bank (IOB) approved Triton's plan by near absolute majority or 99.60% but with a deep haircut to the total outstanding loans. Triton has offered ₹210 crore in cash to creditors of AMW Motors at over 94% haircut to lenders who have total admitted claims of ₹3,756 crore.

IDBI Bank, with 24% or ₹911 crore of dues from AMW, is the bank with the highest exposure followed by IOB with ₹694 crore of loans due.

"This loan account has been overdue for more than six years. It was taken to the bankruptcy court in 2020 and was just about to be liquidated when this offer came about. Yes, the haircut is steep, but it is still higher than the liquidation value and much better than going through liquidation, which sometimes takes months, if not years, with no guarantee of any recovery," said a person involved in the process.

The Anirudh Bhuwalka-promoted company Asia Motor Works or AMW Motors first rolled out trucks from its 50,000-units factory in Bhuj in 2008. In a short span of time, AMW started moving up the ranks. At its peak, the company sold over 10,000 trucks in FY12 and had grabbed 25% market share in the growing tipper truck segment in the country. The decision to expand the business further and a prolonged downcycle in the economy between 2012 and 2015 derailed AMW Motors.

## As Beijing Tightens Covid Curbs, Shanghai Sees Signs of Life

**Beijing | Shanghai:** China's capital Beijing tightened Covid restrictions on Sunday as it battled an outbreak, while Shanghai let some of its 25 million residents venture out for light and air after

reporting a second day of zero infections outside of quarantine areas. Shanghai's outbreak, which began in March,

has been China's worst since the early months of the pandemic in 2020. Hundreds of thousands have been infected and the city has forbidden residents from leaving their homes, to great public anger. Reuters

## 'Corp Travel Bookings Up 46% this March Over Jan 2020'

Anumeha Chaturvedi @timesgroup.com

**New Delhi:** Corporate travel bookings, last to recover in the Covid-19 pandemic, grew 46% in March this year compared to January 2020 on MakeMyTrip and are continuing to rise further, said group CEO Rajesh Magow.

"The good news is as far as domestic corporate travel is concerned, it has opened up across segments, including large corporations. It's not just small and medium enterprises as that is how it started. Everyone seems to have started to travel. Industry conferences and corporate offsites are happening," said Magow.

MakeMyTrip has 1,650 mid-size and large clients, and 30,000 small and medium enterprise (SME) clients. It added 1,000 clients in the mid-size and large space in the last two years.

New clients over the past few quarters include Vedanta, Byjus, Zomato, Indian Oil, SBI, HDFC, Viacom 18 and ICICI Securities, on its myBiz platform and Quest2Travel.

The company had acquired corporate travel management company Quest2Travel in 2019. "And then all hell broke loose. But we see this category growing now," the CEO said. MakeMyTrip has acquired 5,000-1,000 new clients in the SME space in the past two years, Magow said.

## ₹57,847 cr Collected on April 20

From Page 1

The government expects the average monthly collection to be higher than ₹1.40 lakh crore for the first quarter of this fiscal.

"The all-time high magnitude of inflows is very encouraging, and augurs well for a robust year on year growth in the months ahead as well," said ICRA chief economist Aditi Nayar. "This is also evidence of a healthy pace of economic activity in March 2022 in spite of the escalating geopolitical conflict."

The highest-ever GST collection in a single day took place on April 20 — ₹57,847 crore through ₹58,000 transactions. For the March quarter, the average monthly GST collection stood at ₹1.38 lakh crore.

"Sincerely recognise and appreciate the efforts made by each and every state in improving GST revenue collection. India's economic recovery is sure to be on a sustained path due to all our efforts," finance minister Nirmala Sitharaman tweeted.

"Clear proof that Indian economy is firing on all cylinders," said Hardeep Singh Puri, minister of petroleum and natural gas.

Apart from the usual rise in collections in April, the rule that input tax credit will be available only upon timely compliance by the vendors also boosted returns, experts said.

"The impact of the continuing focus on ensuring timely compliance by all GST registrants by restricting the input tax credits of the buyers together with enhanced analytics to detect evasion has also contributed significantly to the all-time high collections reported," said Deloitte India partner MS Mani.

# Buffett is Back With One of His Biggest Buying Sprees in Years

Berkshire ups stock purchases, shrinking cash to \$106 billion; CEO reveals 9.5% stake in Activision, boosts Chevron holding

Buffett and his deputies have struggled in recent years to find ways to put Berkshire's cash to work in higher-returning assets

After complaining for years that high valuations were thwarting his stock-buying efforts, Warren Buffett's Berkshire Hathaway Inc. is back hoovering up other companies' shares. The conglomerate made roughly \$41 billion of net purchases in the first quarter, including a boost to its Chevron Corp. stake that vaulted the investment into Berkshire's top four common stock holdings. Buffett also disclosed that the company now holds an expanded 9.5% stake in Activision Blizzard Inc. stock — an arbitrage bet on the video-game maker in the midst of being acquired by Microsoft Corp.

Berkshire hasn't been this significant of a net buyer of common stocks in any quarter in data going back to 2008. Buffett's flurry of activity in recent months fueled a number of questions from shareholders on Saturday at its first in-person annual meeting since 2019. The gathering, held in Buffett's hometown of Omaha, Nebraska, lasted hours as the chief executive officer and his business partner Charlie Munger fielded questions about markets, nuclear weapons and even Bitcoin. They were joined on stage by two key deputies, Greg Abel and Ajit Jain, who answered questions about the railroad, cyber attacks and auto insurers. Last year, Abel was officially confirmed as the heir apparent to take over as Berkshire CEO from Buffett when he decides to step down.

But Saturday's event was still dominated by Buffett, 91, and Munger, 98, who both gave no indication that they plan to step back from their roles anytime soon. Both executives have slightly lessened other duties in recent years, with Buffett announcing that this year's charity lunch auction will be his last after more than two de-

Buffett and his deputies have struggled in recent years to find ways to put Berkshire's cash to work in higher-returning assets

Buffett and his deputies have struggled in recent years to find ways to put Berkshire's cash to work in higher-returning assets, due in part to stiff competition from buyers including private equity firms as well as high valuations. But the Berkshire executives were back in action during the first three months of the year, adding more Occidental Petroleum Corp. shares and striking an agreement to buy Allegheny Corp. for \$11.6 billion in cash in a deal expected to close in the fourth quarter. That's in addition to the newly ramped-up Chevron and Activision bets. "We have so much trouble finding new ideas we find it hard to ignore any," Buffett said at the meeting in Omaha, Nebraska. Any deal by the conglomerate "has to be sizeable now," he said. Bloomberg

## Musk Says He has No Political Side

**San Francisco:** Tesla CEO and soon-to-be Twitter boss Elon Musk has reiterated that he has no political side, after openly criticizing Twitter's legal head Vijaya Gadde and promoting former US President Donald Trump on the platform. The world's richest man last week supported Trump's social network app 'Truth Social' by sharing its App Store ranking on his microblogging handle. "The far left hates everyone, themselves included!" Musk said in a fresh tweet. "But I'm no fan of the far right either. Let's have less hate and more love," he added.

Musk on Twitter slammed Indian-origin Gadde for suspending the account of 'The New York Post'. During the run-up to the 2020 US presidential elections, the Post wrote an exclusive article about Hunter Biden's laptop. The article has since been verified by many outlets which had initially dismissed the report as misinformation. "Suspending the Twitter account of a major news organisation for publishing a truthful story was obviously incredibly inappropriate," Musk had said in a tweet. IANS

## 50 Civilians Evacuated from Mariupol Steel Plant: Moscow

**Moscow:** The Russian defence ministry said Sunday that nearly 50 civilians have been evacuated from the besieged Azovstal steel plant in the Ukrainian port city of Mariupol.

"On April 30, following the implementation of a ceasefire and the opening of a humanitarian corridor, two groups of civilians have left the residential buildings adjacent to the site of the Azovstal steel plant," the ministry said on Telegram. "Twenty-five residents left in the afternoon. In the early evening, a second group of 21 people left and were taken to Bezimenne," a village situated halfway between Mariupol and the Russian border.
